

IN THE CLAIMS:

30. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said second termination is positioned in a first unit of the multiple unit building and said fourth termination is positioned in a second unit of the multiple unit building.

31. (Currently Amended) A multiple-unit building as recited in claim 29 wherein the first radome and the second radome are coextensive.

32. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first and second connector comprise a universal connector.

33. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite TV jack.

34. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a LAN jack.

35. (Currently Amended) A multiple-unit building as recited in claim 32 further comprising a first satellite antenna and a second satellite antenna positioned respectively within said first radome and said second radome.

36. (Currently Amended) A multiple-unit building as recited in claim 35 wherein said first satellite antenna and said second satellite antenna comprise a flat antenna.

37. (Currently Amended) A multiple-unit building as recited in claim 35 wherein said first satellite antenna and said second satellite antenna comprise a phase array antenna.

38. (Currently Amended) A multiple-unit building as recited in claim 35 wherein said first satellite antenna and said second satellite antenna comprise a variable-inclination-continuous-transverse-stub.

39. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first radome and said second radome are low-profile.

40. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first radome and said second radome have a color that substantially matches a roof color.

41. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first radome and said second radome are contiguous with a mounting surface.

42. (Currently Amended) A multiple-unit building as recited in claim 41 wherein the mounting surface is a roof.

43. (Currently Amended) A multiple-unit building as recited in claim 41 wherein the mounting surface is siding.

58. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57 ~~comprising~~ wherein the satellite signals comprise computer signals and television signals.

59. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57 wherein said first and second connector comprise a universal connector.

60. (Currently Amended) A multiple-unit satellite ready building as recited in claim 59 wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite TV jack.

61. (Currently Amended) A multiple-unit satellite ready building as recited in claim 59 wherein said universal connector comprises a LAN jack.

62. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57 further comprising a first satellite antenna and a second satellite antenna positioned respectively within said first radome and said second radome.

63. (Currently Amended) A multiple-unit satellite ready building as recited in claim 62 wherein said first satellite antenna and said second satellite antenna comprise a flat antenna.

64. (Currently Amended) A multiple-unit satellite ready building as recited in claim 62 wherein said first satellite antenna and said second satellite antenna comprise a phase array antenna.

65. (Currently Amended)

A multiple-unit satellite ready

building as recited in claim 62 wherein said first satellite antenna and said second satellite antenna comprise a variable-inclination-continuous-transverse-stub.

66. (Currently Amended)

A multiple-unit satellite ready

building as recited in claim 57 wherein said first radome and said second radome have a color to substantially match a surface color.
